

YOUR NEW KITCHEN

the process

Showroom Visit

GET INSPIRED

Visit our St Giles' Street showroom and get inspired. View examples of classic and modern styles, collect a brochure from our Showroom Hosts, and book your home survey.

Home Survey

MEASUREMENT & DETAIL

One of our talented Designers will measure your project space, and discuss your ideas and requirements in more detail. We are always happy to work from plans if you are working with an architect on your new project.

Design Meetings

LET'S TALK DESIGN

Meet with your Designer and see your new kitchen design! We can discuss any changes that may be required, arrange any follow-up design meetings, and provide indicative or full costs, dependent on complexity.

Sadly, we don't provide drawings to take away at this point, however we share all drawings and plans at the next stage.

Deposit & Specialists

MEET YOUR TEAM

When you are ready to proceed, we ask for a £1000 initial fixed deposit, we will pencil in an installation date and book another home survey.

Here you can meet your Installation Manager and we can also discuss any specialist work such as plumbing, electrics, plastering etc.

A Structural Engineer will also attend if your project involves structural or building work.

Final Choices

ORDERING YOUR KITCHEN

You'll meet with your Designer at our showroom once more to make exciting final choices for the details, such as door style, colour etc.

At this point we'll issue a full deposit invoice, confirm dates and order your new kitchen.

Installation Schedule

LET'S GET STARTED

You'll receive an installation schedule mapping out dates. You can also visit our worktop specialists; if you'd like. Your Installation Manager will then guide you as your project commences and your dream comes to life.
